WALKING DELEGATE ARRESTED. Attempted to Compel Non-Union Plasterers to Join the Union.

Guthrie, O. T., Feb. 9.—As the result of attempts to compel non-union plasterers to join the union, Carl Wright, the walking delegate of the plasterers, was arrested today at the instance of Contractor Anderson, and in police court was fined five dollars and costs.

Anderson had employed non-union plasterers on the Swift building, in progress on West Oklahoma avenue. The union men were determined to pull the plasterers off the job and finally, not succeeding by other means, demanded that the non-union fellows sign cards within fifteen minutes or sack up their tools and quit. This led to Wright's arrest.

In court Judge (Shultz), although favoring unions, he said, as a means of mutual protection, yet he could not sanction any such action as the evidence showed was used by Wright in his threats to the non-union men.

WANT MAIN LINE. Branch of the Orient Is Not Enough for Hobart.

Hobart, O. T., Feb. 9.—What the people of Hobart desire more in the way of an outlet, is not merely a branch of the Orient from some point on that road into this city, but the main line itself.

The trunk line would give the far greater advantage as an outlet and as a competitor of other roads that enter this city than could be secured from a mere branch road.

The grading on that road has been about completed, and it will require a long, strong "pull" to induce the company to change its route so as to include Hobart. Enough money must be provided to reimburse them for the work done on that part which would be abandoned.

RATE OF DEBT. Must Not Exceed Four per Cent of the Valuation.

Lawton, O. T., Feb. 9.—Because of the many liquidations coming from school district and township officers relative to the maximum amount of indebtedness they may legally incur and the way of outstanding warrants drawn before the bonding of each official district, County Attorney S. M. Cunningham has addressed the officers of these corporations in a lengthy communication through the newspapers, in which he advises them that a 5 per cent is the legal maximum of their power in creating their indebtedness and that warrants drawn before the voting of bonds are legal and can be collected.

WANT NEW BUILDINGS. Superintendent Thackeray Has Forwarded Estimate of the Cost.

Shawnee, O. T., Feb. 9.—The city says that at the time of the burning of the Shawnee Indian Training school main building and dormitory at the mission reservation, two miles south of this city, on the afternoon of January 22, the news of the disaster was telegraphed to Washington and immediately on the receipt of the report Delegate Bird S. McClure, accompanied by Cash M. Cade of this city and George A. Outwell of Tecumseh, who were then enroute at the national capital, called at the interior department and held a consultation with Indian Agent Jones with regard to the rebuilding of the burned structure.

To the inquiries of these gentlemen, Agent Jones replied that a special appropriation by congress for the rebuilding would be necessary and that in order to secure it and to make the fund available this year, the matter should be laid before congress as soon as possible, and Mr. Jones suggested that on their return home Messrs. Cade and Outwell should

call the attention of Superintendent Frank A. Thackeray to the matter and stated that it would be best for Mr. Thackeray to at once submit to the department his estimate of the amount of money necessary to be expended and a detailed statement of everything necessary for the rebuilding and equipment of the training school building.

When spoken to about the matter, Superintendent Thackeray, who has since his school over two years ago, always shown great diligence in attending to all matters pertaining to the betterment of the school, said that he had just forwarded to Indian Agent Jones a statement of what is needed in the way of new buildings, and that they consisted of an assembly hall, two dormitories and a domestic hall, all to be of brick construction and also a new and complete sewer system.

These improvements, Superintendent Thackeray says, will cost something like \$125,000, but that a correct estimate of the cost can only be made after the plans are drawn and adopted.

Mr. Thackeray states that he is fully assured of the assistance of Indian Agent Jones, who has heretofore always proved himself friendly to the school, and that for this and other reasons he is very hopeful of the appropriation being secured.

ON PURCELL'S DENIAL. Governor Ferguson Thinks He Remembers Charges Filed.

Guthrie, O. T., Feb. 9.—Everett E. Purcell, editor of the Daily Events, denied, Sunday in the Eagle that he had filed charges with the president Roosevelt against Governor Ferguson for "white-washing" J. J. Houston, ex-secretary of the school land office, Governor Ferguson said today that Purcell's letter had been returned to Washington, but he had read it carefully and it was not only preferred charges, but called attention to numerous charges from Purcell's newspaper, in which Governor Ferguson and other members of the school land board were charged with trying to cover up the Houston affair.

"Purcell's denial," said Governor Ferguson, "seems to be connected with his ambition to go as a delegate to the Republican national convention."

AGAINST THE BONDSMEN. Supreme Court Decides That the Sureties Must Pay.

Arapahoe, O. T., Feb. 9.—The supreme court has decided the case of the territory vs. Van Trees et al, against the debtors. In the case, the territory Van Trees, was county treasurer. By a failure of a bank in Watonga, where the county funds were deposited, the treasurer was short a little more than \$1,000. Suit was brought on his bondsmen and judgment obtained against the sureties. The case was appealed to the supreme court, where the lower court was sustained. Before the execution was levied, the sheriff was enjoined from levying. The matter dragged along until Mr. W. Wilcox became county attorney. He pushed the matter and again the bondsmen were beaten. J. W. Lawton appeared to the supreme court as a test case, and last week the case was decided against him. In addition to Mr. Lawton, Messrs. Canning, Coffey and nine others are on the bond.

# BOARD OF AGRICULTURE

Annual Convention of Farmers Meets at Guthrie.

SPECIALIST IS PRESENT

Represents the Government and Makes Good Talk.

Guthrie, O. T., Feb. 9.—The annual convention of the territorial board of agriculture convened here today with the president, Ewers White of Shawnee, in the chair. There are numerous delegates from all parts of the territory.

The prominent figure at this meeting, however, is Prof. John Hamilton, the farmers' institute specialist of the department of agriculture at Washington, perhaps the best known and generally acknowledged expert in this line in the world. He comes to Oklahoma at the request of Secretary Wilson of the territorial board, being designated by Secretary Wilson of the national department.

Prof. Hamilton is an old time friend of Prof. John Fields, the manager of the Oklahoma experiment station at Stillwater. Mr. Hamilton was formerly president of the Pennsylvania board of agriculture and at the head of the agricultural college of that state for years. His worth as a specialist is recognized by the government and he has been in Uncle Sam's employ for a number of years. He will make several addresses while in the territory.

The convention will continue over tomorrow and the next day. The members of the board are Governor T. B. Ferguson, ex-officio, Horace J. Newberry, J. H. Seaman, J. O. Thomas, Ewers White, R. Kleiner, E. J. Murphy and Secretary Thurnham. The following is today's program, beginning at 8 o'clock tonight:

FOR SELLING QUAIL. Three Men Are Fined for Violating Game Law.

Stillwater, O. T., Feb. 9.—George Myers and F. F. Miller of Cushing were arraigned today in the probate court on the charge of violating the game law of the territory. George Myers pled guilty in two cases and was fined \$5 in each, which was very promptly paid, together with \$30 attorney fees and costs. Luther Myers and F. F. Miller both entered a plea of not guilty and their cases were set for trial on the 15th and 16th of this month. They gave bond for their appearance here at that time. Mr. Miller is local agent of the Santa Fe railroad at Cushing and is charged with receiving game for transportation contrary to law.

TO OBSERVE THE LAW. Will Compel Farmers' Insurance Companies to Meet Requirements.

Guthrie, O. T., Feb. 9.—William Grimes, ex-officio commissioner of insurance, will institute proceedings in a few days to compel farmers' mutual insurance companies to comply with the law regulating their business. One or possibly all of the companies at fault will be enjoined from doing business in violation of the law, which requires that no farmers' mutual company can operate without a bona fide membership of not less than 1,000. Several companies have disregarded this requirement.

ATTEMPT AT SUICIDE. Cut His Throat but Did Not Go Deep Enough.

Waurika, O. T., Feb. 9.—The News says: John Seay, who lives in Greer county, attempted to take his own life near here yesterday evening.

On last Christmas day his wife was accidentally killed with an empty gun, (or supposed to be) which he had in his hands.

The shock was so great that he has been unable to work it.

He cut his throat but did not sever the jugular vein and may live.

SPEED AIDED COUNTY. Pawnee County Man Says the County is Satisfied.

Guthrie, O. T., Feb. 9.—Regarding the action of the Pawnee county commissioners against Horace Speed, United States attorney, to recover alleged extortionate fees, Dr. G. H. Phillips of Pawnee today said: "The taxpayers of the county are participating in any action of the kind, as they feel that the county was saved many thousands of dollars by the action of Mr. Speed in collecting the \$40,000 back cattle taxes, which the county would not otherwise have had."

FISCAL AGENCY NAMED. New York National Bank of Commerce to Handle Oklahoma Cash.

Guthrie, O. T., Feb. 9.—Governor Ferguson today announced the appointment of the National Bank of Commerce, New York city, as a fiscal agency for Oklahoma, succeeding the Western National bank, which has merged into the first named institution.

The object of such a fiscal agency is for the payment of interest on Oklahoma warrants, of whatever kind, held in the east.

STOLE A HORSE. Got Away from His Captors and Can't Be Found.

Shawnee, O. T., Feb. 9.—A local character named John Robinson stole a horse and saddle while a literary was in session at Hagar, six miles north of Shawnee, Friday night. He rode the stolen animal to Meeker and attempted to rob a store at that place but was caught in the act and compelled to surrender at the hands of a shotgun in the hands of the proprietor.

Meeker is in Lincoln county but before his captors could start for Chandler with an officer and a posse arrived from Hagar and he was turned over to them on the horse stealing charge. He was brought back and taken before Justice

of the Peace R. E. Wells and bound over to the district court for trial.

The deputy constable drilled around with him all day yesterday in an attempt to secure bond and failing to get it the deputy, the man whom he had been bound, and another guard started with him for Shawnee a little after dark last night.

Robinson watched his chance and as the party crossed Rock Creek, some four miles out, he dived out of the back and made good his escape. The posse fired a few shots after him and followed his trail for some time but he eluded them and they came on to town for assistance.

Robinson is from Texas and last fall got involved in a difficulty ending in his stabbing a man while the two were working with a threshing outfit in that locality.

He ran away at that time, crossing the country to Earlbore, where he caught a train and returned to Texas. His bondsmen got him out of that trouble and he came back. Officers watched last night for him at the junction and at Earlbore, but it is likely he would start another horse during the night and strike for the Indian territory line.

Robinson is about 25 years old, weighs 160 pounds and is evidently built for a penitentiary job.

CHARGE IS EXTORTION. Was Trying to Cash a Check for \$500 When Arrested.

Oklahoma City, O. T., Feb. 9.—Deputy Sheriff Dyer and Saddle have arrested Dr. H. L. Larson, C. P. Locke, an attorney, and Charles Mahon, who have offices in the American express company building on Grand avenue. Larson was arrested at the Commercial National bank, where he was trying to cash a check against Nicholas Mohr for \$500. The charge against the two is extortion.

About 11 o'clock Nicholas Mohr rushed into the office of Sheriff O'Brien stating that he had given a check to Dr. Larson for \$500 and demanded a warrant for the arrest of the three men named above on the charge of extortion. The sheriff immediately called the Commercial National bank and arrived just in time to hear Cashier Trueblood ask Larson the following question:

"Did Mr. Mohr give you this check?" He was about to reply when Deputy Saddle stepped up and said to Larson, "I have a warrant for your arrest."

Deputy Dyer then demanded the check which was given him. Larson was then locked up in the county jail, after which Mahon was arrested on Grand avenue and Locke on North Broadway.

The information against the men alleges that on February 2 they threatened to accuse Hugo Mohr of a felony and to impute to him disgrace and to expose a secret affecting him that they willfully attempted to extort money.

E. J. Giddings, who has been retained as their attorney, said:

"The matter is purely a civil matter and that all the connection Mr. Locke had with it was as an attorney for the other parties. I think these things will be clearly shown at the preliminary trial."

He said it was reported in the neighborhood that a three-foot vein of bituminous coal had been struck at a depth of eighty feet in a well that was being dug on the old Boyd place on Haystack creek. Mr. Barnes says he is not certain that there are coal beds in that vicinity, as there are two springs in that neighborhood the water of which makes the same yellow stain on the rocks and has the same taste as the springs in the coal regions of West Virginia, where he was raised.

OPERATIONS A FAD. Public Gradually Awakens to the Fact.

The latest fad in operations has been the appendicitis fad; before that the fad for rectal operations (piles, etc.) held sway. Hundreds of patients were frightened and hurried into hospitals, operated upon and robbed of their last dollar, when the trouble was a simple case of hemorrhoids or piles only, easily cured at home with a simple remedy costing but fifty cents a box.

"I procured one fifty cent box of Pyramid Pile Cure of my druggist, with the intention of buying a larger box later, but was happily surprised when I found that I was cured, and still have six pyramids left out of the first and only box. I have not had the least sign of piles since I used this one box, which has been about two months; previous to using Pyramid Pile Cure I had the worst kind of bleeding and protruding piles for over thirty-one years, and no one knew except those who have had the piles, the pain and misery I suffered."

"I am a poor man, but have often said I would give a fortune, if I had it, to be cured of the piles, and now I have been cured for fifty cents. I should be very grateful if I did not thank you and give you every privilege to use my name and this letter, when I know there are so many who suffer as I did. J. A. Weiss, 1106 Bladenburg Road, Washington, D. C."

The Pyramid Drug Co., Marshall, Mich., publish a little book on the causes and cure of piles, which they will be glad to mail free to any applicant, and give advice to all sufferers from this painful disease to write to them for it.

# PRITCHARD IS A MAN OF NERVE

New Appointee for Indian Territory Is Experienced.

DEALT WITH MOONSHINERS

Has Had Hairbreadth Escapes While on Duty.

Guthrie, O. T., Feb. 9.—The report from Washington that Geo. K. Pritchard of North Carolina has been named to succeed Marshal Hackett in the Indian territory district has aroused some interest among Oklahoma politicians. The new appointee is a brother of ex-Senator Pritchard, of North Carolina, at present one of the justices of the supreme court of the District of Columbia, who is the trial judge in the case of the government against Mochen, late superintendent of the free delivery service in the general postoffice.

While the president has gone away from home in making the appointment, the selection of Pritchard for the vacant marshalship is looked upon as a good one, says a Washington dispatch. He has a record as an officer. He served a term as sheriff of Madison county, N. C., and for years was United States revenue officer and deputy United States marshal in the moonshine regions of his native state. He has had some of the most hair-breadth escapes and some of the most desperate battles with evildoers of any man in the south. He killed one man in a hand-to-hand fight after being shot through the breast, and it is said carries the marks of no fewer than half a dozen wounds on his body, inflicted in desperate encounters with moonshiners and desperadoes. His general record is that of one of the bravest men ever in the service of the government.

During his brother's term in the senate he had a place as one of the door-keepers of the senate, and he is well known by public men here. Personally he is rather a good-looking man of about 40, medium height and strong build, and quiet and gentlemanly in demeanor. He is said to be a man of peace but extremely dangerous in case of trouble.

Madison county, of which he was sheriff at one time, is one of the mountain counties of the state. The population is largely Republican but is peopled by very few negroes, and has probably had more killings than any other section of North Carolina. It is said that Pritchard was one of the best sheriffs the county ever had, and during his incumbency crime was reduced to a minimum. In addition to serving in this capacity and as a revenue officer, he served a term in the North Carolina legislature.

It is stated on good authority today that there will be further removals of federal officers in the Indian territory, and that United States Marshal Colbert is slated to go next week.

NO DIVISION IN WOODS. That Is the Opinion of Ed. Marchant of Aline.

Guthrie, O. T., Feb. 9.—Ed Marchant of Aline, Woods county, is in attendance at this session of the Masonic grand lodge and anent the discussion of a recent press story giving out that Woods county is divided, said:

"If the county is ever divided by the legislature, it will be the result of a scheme of town boomers who seek to tear down the great for the upbuilding of the insignificant. The people of Woods county do not want division. If a vote should be taken, the majority against it would be overwhelming. The farmers who pay the taxes realize the taxes. They are satisfied with present conditions and desire that they should remain."

"While it is true that there are residents of Woods county whose place of abode is farther distant from the county seat than is any resident of Delaware distant from the capital of that state, yet those people of Woods county are against a division of the county's territory."

"It would be political death for anyone with aspirations for office in Woods county to declare or admit himself in favor of a division of the county. If the question should be taken up by a legislature, it matters not what the policies of the body, it would mean the defection of the vote of that party in Woods county. The people of the county feel that it is a matter that concerns them alone, and they will not stand for outside interference, hence."

"There might have been a time when the proposition would have been looked upon with some degree of favor. That time, if it ever existed, is in the past. The county is now traversed by five railroads and it is only the question of a few hours to reach the county seat. Every trader makes arrangements whereby taxes may be paid without a trip to the county seat. Taxes may be paid at many of the postoffices and local banks. This is another argument at command of the farmers who in the large majority are against a division of the county."

Kiyoura today, which stated that one war could make no difference with the exhibits of Japan at the fair.

Kiyoura is the minister of commerce and agriculture of Japan. The engagement at Port Arthur is looked upon by M. Kamekida, acting commissioner as a Japanese victory.

"It makes no difference whether it is a victory or not," he said. "The Japanese will never give up. They will fight always to the end. We are a peculiar people in that a victory encourages us much, while a defeat encourages us still more."
